

I BELIEVE IN LOVE

I believe in open doors
Walking through
Seeing more
Finding out what we came here for
I believe in love

I believe in a single sound
Never lost
Always found
Causing our Earth to whirl around
I believe in love

This is a garden, plant a seed
What you believe will come to be
And with the last breath that I breathe
I'll believe in love

I believe in wings of light
Breaking our shells
And taking flight
Staying aloft through the darkest night
I believe in love

This is a garden, plant a seed
What you believe will come to be
And with the last breath that you breathe
Please believe in love

Now, I believe in open doors
Walking through
And seeing more
Finding out what we all came here for
I believe in love

This is a garden, plant a seed
What you believe will come to be
And with the last breath that we breathe
We'll believe in love
We'll believe in love
We believe in love

Let it flow.....
