

THIS NEIGHBOURHOOD

(Green, White and Blue)

I've lived in this neighbourhood right from the day of my birth
They say it's too crowded, but I say it's heaven on Earth
Tractors and limousines, mansions and broken down shacks
We go when we please, but nobody leaves without coming back

This neighbourhood's blue, this neighbourhood's green
Prettiest place you've ever seen
River so wide, mountain so high, valley so low
Grain in the field, fish in the stream
We've got enough, more than we need
This neighbourhood's why the colours I fly
Are green, white and blue

But some people's children don't know what to do with their time
They're rough cut, they're reckless, got no lick o' sense in their mind
They take things for granted and seldom say thank-you or please
Don't know what they've got, ain't never been taught to fall on their knees

This neighbourhood's blue, this neighbourhood's green
Prettiest place you've ever seen
River so wide, mountain so high, valley so low
Grain in the field, fish in the stream
We've got enough, more than we need
This neighbourhood's why the colours I fly
Are green, white and blue

Nothing more to say
Love will find a way

This neighbourhood's blue, this neighbourhood's green
Prettiest place you've ever seen
River so wide, mountain so high, valley so low
Grain in the field, fish in the stream
We've got enough, more than we need
This neighbourhood's why the colours I fly
Are green, white and blue

It's a beautiful place
Spinning through space
Green, white and blue
